WHAT'S NEW?

Over the last term, the School In-Reach Team have been working hard to expand our offer to schools. As part of our tiered training offer, we have developed new training packages ready to deliver in Spring 2023, and have delivered training both online and face-to-face. We have also developed a number of group interventions which are being delivered to young people in schools across Cardiff and the Vale. We are looking forward to reviewing feedback for the work we have been doing so far and for what's to come in 2023.

NEW STAFF INTRODUCTIONS

We are excited to introduce and welcome our new Clinical Lead, Dr Rhian Murphy and our new Team Secretary, Claire Barry to the School In-Reach Service.

Welcome back and Happy New Year!

We hope you have had a restful festive period and are ready for the warmer and lighter days ahead. We're one term into the school year, and we have met and worked alongside lots of schools and education staff. Thank you for welcoming us into your schools and settings, and engaging with us to think about how we can work collaboratively to meet the needs of learners and staff across Cardiff and Vale.

We continue to offer online training, and have worked hard to develop these around themes based on your feedback. Thank you for all of your support, comments and kindness from our previous training! We look forward to continuing to work with you over the coming months.

If you would like to be part of a focus group to discuss the emotional wellbeing needs of Primary age learners, and how the School In-Reach team could best extend our offer to Primary Schools, please email schoolinreach.cav@wales.nhs.uk

"I'm really excited to join the School In-Reach team as Clinical Psychologist and Clinical Lead. At the moment, I am taking time to get to know the team and find out about the wonderful work they are doing whilst developing my role alongside them. I'm also really keen to get to know the schools and other agencies we work in partnership with. If we haven't met already, I hope to meet many of you in the near future."

Dr Rhian Murphy
Clinical Lead

"I've been working in the Emotional Wellbeing & Mental Health Team for 12 years now and have experience of working across many of the teams. I'm looking forward to working with the School In-Reach team and being able to assist them in delivering an invaluable service within the school environment."

GROUPS

Over the last term, we have been developing and piloting our group interventions. Here is a breakdown of each of the groups that will be co-delivered by School In-Reach and education staff, ranging from 4-6 weeks. Groups delivered within your setting will be discussed during termly prioritisation meetings.

SECONDARY

UNDERSTANDING AND MANAGING ANXIETY

Supports young people to understand what anxiety is and where it comes from. To be able to notice what happens in their body, their thoughts, and the provide them with the skills to ground themselves. To learn positive coping strategies and hopefully break the cycle of anxiety.

UNDERSTANDING AND MANAGING MOOD

Supports young people to understand what low mood is, how it can develop and how it affects our thoughts, feelings and behaviours. The group encourages participants to identify their values and interests and explore ways to improve mood through behavioural activation, challenging unhelpful thoughts and problem solving.

MANAGING BIG EMOTIONS

Supports young people to explore what emotions are and why we have them, to build on their emotional literacy and to develop an awareness of possible triggers for big emotions. The group also aims to provide young people with strategies they can use to help self-regulate and tolerate emotions more effectively.

BUILDING CONFIDENCE AND SELF-ESTEEM

Aims to increase learners' understanding of the causes and effects of low self-esteem and low confidence. To provide an environment that will encourage learners to reflect on their views, perceptions and doubts and encourage a more positive view of themselves. To support learners to develop effective strategies and coping techniques to boost confidence and increase positive self-esteem.

TREE OF LIFE

A creative therapeutic activity that can provide children and young people the opportunity to share, with support of an adult, the personal aspects of themselves. It also gives the opportunity to thicker stories of strength and resilience. It will be co-facilitated by the School In-Reach team and education staff who have attended our Tree of Life workshop.

PRIMARY

FEELINGS ARE FUNNY THINGS

Co-delivered with named education staff in selected primary schools to a small group of year 5 or 6 learners. It is an interactive intervention which uses storytelling and activities to develop children and young people's emotional literacy and wellbeing. It can be an opportunity to build learners' skills in identifying, managing and communicating their emotions, build confidence and skills in relationships.

At the moment, primary schools are being identified by our colleagues Cardiff Education Services and the Vale Engagement Service.
